**Most people only look  
for jobs on JOB PORTALS**

**Here are 7 platforms  
to get you hired fast  
for your dream job:**

**(Hybrid, Remote or Part-Time Jobs)**

# 1. **Her Key** (Previously Jobs for her)

A platform that connects women to jobs, community, mentoring, reskilling, inspiration, and networking opportunities in order to help them advance their careers.

Mentorship is also available for women who want to start or resume their careers on the platform.

In addition, the brand has over 500 reskilling partners to help women reskill/upskill before entering/reentering the job.

## 2. Remote.co

The key highlight of this website is that its founder champions the cause of a flexible lifestyle and has promoted remote work in his talks around the country.

It is able to source job listings which might just be entering the flexible work community.

Link: <https://remote.co/>

### 3. Jooble

An international job aggregator with a presence across 70+ countries.

It partners with technology giants like LinkedIn and Google to source vacancies from corporate websites, social networks, classifieds, and other resources.

## 4. **We Work Remotely**

This one is the largest remote job community in the world.

It has over 2.5 mn visitors every month and hosts remote jobs for every category from Finance and Legal to Programming and Systems Administration.

## 5. **Apna**

The Apna app provides opportunities across 70 categories including various qualification categories – (SSC, HSC, freshers, experienced) and **work models** (work from home, part-time, contract-based).

Link: <https://apna.co/>

## 6. **Dribbble**

Dribbble is considered to be a community of the creatives, i.e, illustrators, web and graphic designers and other creative profiles who leverage it to share and showcase their work portfolios and respective projects.

Companies looking for the right fit in terms of top-notch software developers, designers, and small studios can find the right match within 24 hours.

## 7. Wellfound (Previously Angellist)

Wellfound is one of the Tech Hub job search websites. If you always dreamed of working for tech companies but couldn't find remote tech jobs, then Angellist is your best option.

Wellfound offers tech jobs with various options such as on-site, hybrid, remote, etc.
